

Technical drawing of a road cross-section. The drawing shows a longitudinal slope of 3.00% and a side slope of 1:1.5. The centerline is marked with a red dashed line. The elevation at the centerline is 411.64. The elevation at the left edge of the road is 411.97, and at the right edge, it is 410.27. The drawing includes horizontal dimensions (0.75, 2.75, 2.75, 0.75) and vertical dimensions (1.68, 1.74, 1.58, 1.52, 1.30). The drawing is labeled with 'S.R.=406,00' at the bottom.

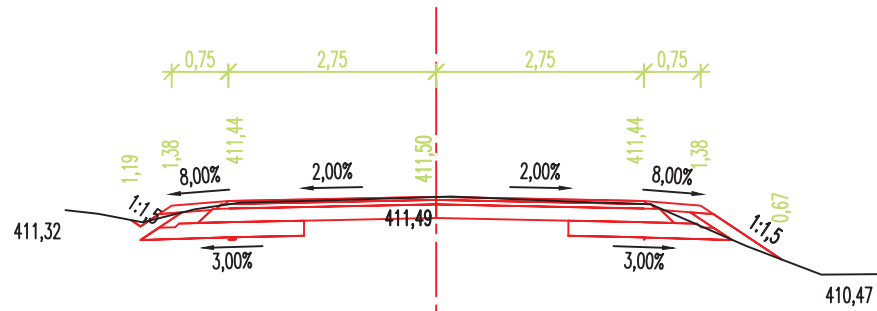

Technical drawing of a road cross-section. The road width is 10m, with 3% side slopes and 8% super-elevation. The drawing includes elevation markers (411,28 to 411,44), slope percentages (1:1,5, 3,00%, 8,00%), and horizontal dimensions (0,75, 2,75, 2,75, 0,75). A red dashed line indicates the centerline at S.R.=406,00.

S.R.=407,00

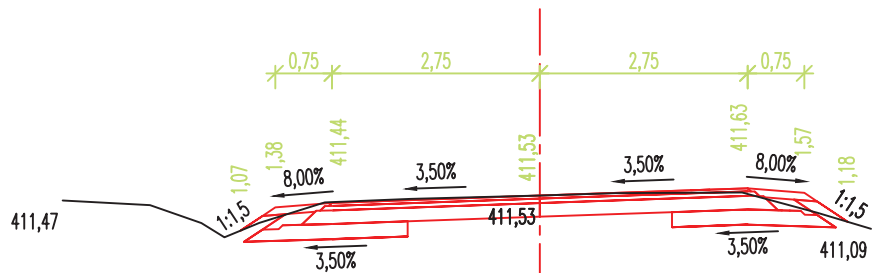

The diagram illustrates a road cross-section with the following details:

- Elevations:** The left side starts at 412,03 and ends at 410,97. Key elevation points are 411,63 at the centerline and 411,58 at the edges.
- Slopes:** Slopes are indicated as 1:1,5 on the left and right sides, and 3,00% for the inner shoulders.
- Dimensions:** Horizontal distances from the centerline are 0,75m, 2,75m, 2,75m, and 0,75m. Vertical offsets are 1,52m and 1,27m.
- Centerline:** A vertical dashed red line marks the centerline, with a stationing value of S.R.=406,00 below it.
